

MATERIAL SAFETY DATA SHEET

E-Z OFF

SECTION I – MANUFACTURER’S NAME AND CONTACT INFORMATION

Manufacturer

E-ZOIL Products, Inc.
234 Fillmore Avenue
Tonawanda, NY 14150

Emergency 1-800-633-8253 PERS
Information 716-213-0106
Date prepared July 1, 2011

NFPA Code: Health 1 Fire 2 Reactivity 0

SECTION II – HAZARDOUS INGREDIENTS/IDENTITY INFORMATION

Components	CAS Numbers	% by Weight
Naptha, Petroleum, Heavy Alkyate	64741-65-7	>90%
D-Limonene	5969-27-5	<5%
P1059	90218-35-2	<5%

SECTION III – PHYSICAL & CHEMICAL CHARACTERISTICS

Boiling point: 347°- 401° F Specific gravity: 0.758 @ 60° F
Solubility in water: Negligible Vapor pressure: 0.53 mm hg @ 68° F
Flash point: 124° F tcc

SECTION IV – FIRE & EXPLOSION HAZARD DATA

Extinguishing Media: Use water fog, dry chemical, or carbon dioxide to extinguish flames. Material may re-ignite on surface of water.

Firefighting Instructions: Combustible. Clear area of all non-emergency personnel. Do not enter confined fire space without full bunker gear including a self-contained positive pressure NIOSH approved breathing apparatus. Containers exposed to intense heat from fire should be cooled with large quantities of water to prevent weakening of container structure to prevent container from rupturing.

SECTION V – REACTIVITY DATA

Stability: Material is stable under normal conditions.

Conditions to avoid: Prevent vapor accumulation. Avoid heat and open flames. Avoid strong oxidizing agents.

SECTION VI – HEALTH HAZARD DATA

Inhalation: Breathing of vapor concentrations may cause central nervous system depression resulting in dizziness, light-headedness, headache, nausea and loss of coordination. Continued inhalation may result in unconsciousness. Get immediate medical attention.

Eye: May cause temporary discomfort or irritation to the eye. Get immediate medical attention.

Skin: May irritate skin. Prolonged or repeated skin contact may dry skin that may result in a burning sensation and/or a dried, cracked appearance. Get immediate medical attention.

Ingestion: Liquid can directly enter the lungs through aspiration when swallowed or vomited. Serious lung damage and possibly fatal chemical pneumonia can develop if this occurs. Get immediate medical attention.

SECTION VII – PRECAUTIONS FOR SAFE HANDLING AND USE

Keep containers closed when not in use. Store in well ventilated areas away from heat, sparks, and flames. Ventilate area away from heat sparks and flames. Remove contaminated clothing and launder before use.

SECTION VIII – CONTROL MEASURES

Eliminate potential sources of ignition. Contain area with use of dikes or absorbents to prevent migration and entry into sewers or streams. Take up small spills with absorbent pads. Large spills may be taken with pump or vacuum.

SECTION IX – TRANSPORT INFORMATION

Non-regulated in containers of 119 gallons or less.

Disclaimer of liability: The information in this MSDS was obtained from sources we believe are reliable, however the information is provided without any warranty expressed or implied regarding its correctness. The conditions or methods of handling, storage, use of, disposal of the product may be beyond our control or knowledge. For this reason we do not assume responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of this product.
