

Phaze-Out

Gas/Ethanol Performance Additive

The best all-season performance gas/ethanol additive, PHAZE-OUT enhances all-around performance & helps you avoid expensive breakdowns. PHAZE-OUT prevents separation of E-10, E-15 & E-85 fuels. PHAZE-OUT cleans critical fuel system components including injectors, carburetors, valve seats & combustion chambers & also prevents corrosion of metal parts. PHAZE-OUT is safe for use in cars, trucks, boats & 2 & 4 cycle engines.

- Prevents Gas/Ethanol Separation
- Improves Combustion
- Cleans Fuel System
- Prevents Corrosion
- Stabilizes Fuel
- Safe for use in E-10, E15 & E-85
- Safe for All 2 & 4 Cycle Engines

PART#	SIZE	UNITS/CS	TREATS	DIRECTIONS
G10-08	8 OZ	24	40 GL	Use 1 OZ to every 5 GL of fuel
G10-01	1 GL	6	640 GL	Use 1 GL to every 640 GL of fuel
G10-05	5 GL	1	3,200 GL	Use 1 GL to every 640 GL of fuel
G10-55	55 GL	1	35,200 GL	Use 1 GL to every 640 GL of fuel
G10-275	275 GL	1	176,000 GL	Use 1 GL to every 640 GL of fuel

An overtreatment of additive is not harmful. For best results, add additive before filling tank.

For maximum gas/ethanol performance, reach for PHAZE-OUT!

Phaze-Out

Gas/Ethanol Performance Additive

PROBLEM

Did you know that today's gas contains up to 85% ethanol and is regularly contaminated with water? Water contamination causes ethanol to separate from gas and settle to the bottom of the fuel tank along with water. This ethanol/water mixture can corrode fuel system components and destroy gaskets, seals and rings. This costs you money in lost fuel economy and power and may lead to expensive fuel system repairs.

SOLUTION

Did **PHAZE-OUT** prevents and even reverses separation of ethanol and gas. This results in improved fuel combustion and eliminates the harmful effects of corrosion. **PHAZE-OUT** also cleans and stabilizes the fuel system. **PHAZE-OUT** is safe for use in E-10, E-15, and E-85 fuels. It is also safe for use in all 2 and 4 cycle engines.

PROTECT YOUR SMALL ENGINE

and use **PHAZE-OUT** in every tank!

PHAZE-OUT is safe for use in E-10, E-15, and E-85 fuels, and in all 2 and 4 cycle engines.
